Key Reasons

why you might choose Premier Pitches

PREMIER
Pitches

New Builds

Maintenance

Resurfacing

At Premier Pitches, all our services are customer centric so we will work with you to achieve your goals. We supply the highest quality synthetic grass available including everything from design and advice to ground works, drainage, hurling walls, floodlighting, ballstop netting, shock-pads, grass installation and fencing.

All of our grass installations are certified for GAA, FIFA, Rugby and Hockey pitch standards. We will happily call to you (anywhere in Ireland) to conduct a full site visit to give advice and a quotation - all with no obligation and completely free of charge.

As a family owned business we offer flexible credit terms so you don't have to worry about large deposits and pre-payments. As part of that commitment we provide a complete guarantee on all our work and products. We are established 30 years - we are secure, you are secure.

(Pictured above) The SMG Sandmatic accurately regulates and spreads the correct amount of infill per m² which results in an even distribution of sand and rubber deep into the synthetic grass fibres which cannot be achieved with a standard drop spreader. This in turn results in less maintenance costs throughout the life of the pitch, longer lasting

surface and a direct long term saving to the client. Our unique method of pitch refurbishment using the SMG Turf Muncher carefully removes the sand and rubber infill from the old synthetic carpet. This allows for the recycling and reuse of the old synthetic grass for a range of secondary activities such as domestic use in gardens, agricultural use and other play areas. Removing the sand and rubber infill from the carpet allows for the resale of the carpet which may not be possible through traditional resurfacing methods thus allowing your club, school or organisation to recoup some of the initial project costs.

Highest quality materials used

Guaranteed to improve your sports grounds and playing experience

100%
Irish Owned

Combined with Top Quality we offer
Highly Competitive Rates

With over 30 years of experience designing and building every type of playing field imaginable, we have developed a unique system ideal for all recreational uses. Our natural looking artificial grass is designed to be soft underfoot, yet highly durable and able to withstand even the toughest conditions.

WE MAKE
ARTIFICIAL REAL

It is with great pride I look back at the history of the company over the last 30 years starting as a small family run business to becoming one of the largest installers of 3G Synthetic Pitches and Sports & Security Fencing Company's in the country. I want to thank you for taking the time to learn more about us and what we do. Putting in an artificial pitch involves an extraordinary amount of people and hard work and the most important of those are the ones who play on the final result. For parents and supporters we all know what goes into training

and match day and anything that makes that experience easier has to be welcomed. At Premier Pitches we are preparing for more growth both on and off the pitch with our plans to add new technology. Clubs, Schools and Colleges throughout Ireland are using our facilities and we are proud to have achieved ISO standard at the highest level. As Business Development Manager, I am delighted to be part of a wonderful brand and community. As a sports fanatic and highly involved in local GAA, I understand what it means to our clients to invest in these new

developments. It is a big undertaking and they expect top quality and value for money, which, more often than not is raised through local fundraising. That being said, it is a pleasure to have the opportunity to work with an array of clients throughout the country to deliver state-of-the-art facilities and in turn watching all members within the club, School and organisation benefit and develop from our service. We welcome the opportunity and possibility of building something great together and especially for the benefit of all of our grassroots supporters.

What we do

QUALITY ASSURED

Premier pitches have over 30 years of experience. At our custom factory we build everything from scratch. No matter how big or small the project attention to detail is paramount.

DESIGN & PLANNING

We handle all of the groundwork, drainage, fencing, sports netting and lighting systems from concept to delivery. Lo-call us today for a no obligation quote: 1850 70 71 72

FULLY WARRANTED

Our JNC Extreme Turf synthetic grass product is fully certified to GAA, FIFA, IRFU and FIH standards and comes with a standard 8 year warranty. We also offer an 8 year workman-

ship warranty on the installation of our fencing and netting products which are manufactured at our plant in Tipperary and installed by a qualified JNC Fencing installation team.

HEALTH & SAFETY

Our bespoke design solutions include site surveys, planning, specs, health and safety plans and project drawings delivered to GAA FIFA, FIH and IRFU standards.

RESEARCH & DEVELOPMENT

All work on any artificial grass pitch begins at the research and design stage. Every inch of each location is carefully inspected to ensure compliance with local regulations. Following a detailed site inspection we produce a full report identifying any issues and po-

tential solutions. Premier Pitches have a proven track record in providing solutions that stand the test of time. A full pre-construction analysis of the location is essential to ensure the long-term durability of the installation and yield maximum ROI.

- Stone sub-base
- Geotextile layer
- Sub-soil base

PROVEN TEST RESULTS

Premier Pitches are delighted to announce their new All Weather Pitch Project at St Kevins GAA, Co Kildare, which was independently tested by Sports Labs Limited. The tests consisted of a number of performance related and build quality

assessments to ensure the highest quality is achieved in each synthetic pitch project. The results are a testament to the high standard of work carried out by the JNC Premier Pitches and our Fencing team.

WHY CHOOSE US?

Premier Pitches have a long track record of successful installations. Working closely with our design and installation team our goal is to provide safe, durable and practical sports surfaces for all users.

Premier Pitches is part of the JNC Group, a family owned group of companies, dedicated to the design, manufacturing, and installation of high-grade fencing and premium recreational solutions. Having

access to such a wide-range of innovative products and highly-trained staff allows us to remain truly competitive and deliver real cost savings to our growing customer base.

“

everything they do is second-to-none and I'm delighted to be associated with them...

”

Liam Cahill - All Ireland Winner

As a former inter-county player and current senior county manager, I am delighted to be the brand ambassador for JNC Premier Pitches. For me personally, Premier Pitches are synonymous with providing a top-class product that gives excellent value, comfort, and most of all safety to many clubs, schools and colleges around the country. Premier Pitches allow sportsmen and women of all ages and ability to pursue and enjoy their chosen sports throughout all seasons. I have had the pleasure of facilitating

many training sessions on JNC Premier Pitch surfaces and have found them to be of the highest standard and quality. Premier Pitches offers a one-stop-shop service that is unrivalled for value and quality. From turning the first sod of turf to the final product, everything they do is second-to-none and I'm delighted to be associated with them. Over the next several years I will be offering my support every step of the way.

Won 2016 Minor All Ireland Hurling with Tipperary as Manager

Won 2018 U21 All Ireland Hurling with Tipperary as Manager
Won 2019 U20 All Ireland Hurling with Tipperary as Manager
Current Waterford Senior Hurling Manager

Pembroke Wanderers Hockey Club, Dublin

Consistently ranked as one of the best hockey pitches in Leinster, JNC Premier Pitches were delighted to win the contract for the removal of the old playing surface and installation of a new, "AstroTurf Hockey Classic System" at Pembroke Wanderer's Hockey Club in Dublin. The new installation paved the way for a more user friendly playing experience which no doubt is reflected on their scoreboard.

Thanks to the non-directional characteristic of the yarn the ball roll makes this location one of the fastest hockey surfaces in the world. Short passes or long shots; controlling the ball is easy. The system is called "Classic", but the play performance matches if not exceeds the demands of the most seasoned hockey players anywhere.

The installation site was adjacent to an existing club house, grass pitches, dressing rooms and car park which needed to remain functioning during the refit. JNC Premier Pitches has its own in-house health & safety manager and a dedicated contracts manager (Lloyd Adams). Site safety for club members, the public, and our staff was essential.

System Specifications
Surface: AstroTurf
Hockey Classic
Sub base: 15 mm e-layer
New In-situ Shockpad

Rathcoole Boys Football Club, Dublin

EXECUTIVE SUMMARY - RATHCOOLE BOYS FOOTBALL CLUB

Premier Pitches replaced the club's natural grass surface with a regulation sized 3G synthetic soccer pitch using only the finest materials available. The finished product makes for a natural-looking playing surface with the added benefit of being able to withstand heavy traffic and harsh weather conditions. This All weather turf is exceptionally easy to manage and offers a soft, comfortable surface for players to enjoy for many years to come. The 60mm ACT Global FIFA approved synthetic grass build included spectator fencing, 2.4m high and specialist 10m high ballstops all manufactured and installed by JNC Premier Pitches.
