

**Superior surfaces,**  
for any weather.

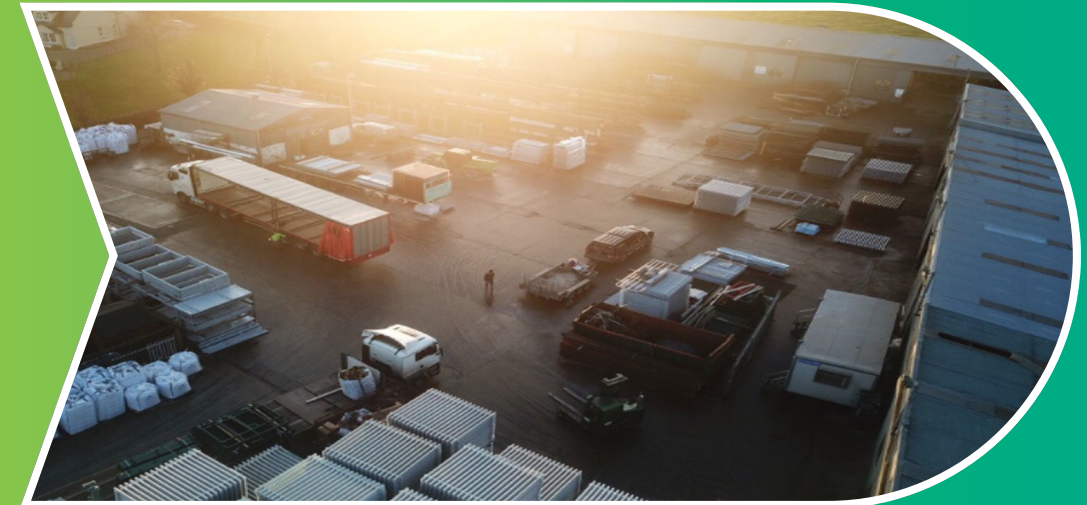

# Our Vision

Based in Cashel Co. Tipperary JNC Premier Pitches have been in operation since 1990.

Employing over 50 staff, JNC Premier Pitches operate from our 200,000sqft operating facility in Cashel Co. Tipperary which boasts a powder coating facility for fencing, ample storage space and a purpose built manufacturing facility which produces security and sport pitch fencing products which include 868 Doublebeam, Spectator rail & spike top palisade for large scale security fencing also.

Premier Pitches has quickly transformed into one of the leading synthetic pitch installers in Ireland and operate nationwide. We complete on average 50 pitch projects every year, working with an array of different clients and project types. Premier Pitches and have invested heavily in recruiting the top project managers from the industry with a combined experience in constructing pitches of over 30 years in mainland Europe, the UK and Ireland.

JNC Premier Pitches have installed everything from small MUGA play surfaces right up to full size soccer, Rugby, Hockey and GAA synthetic facilities. We are completely self sufficient to complete a full synthetic pitch build from start to finish. Our plant includes, 2 lazer guided bull dozers, rollers, heavy duty track machines, a range of smaller track machines, dumpers, infill spreaders and teleporters.

**200,000 SQFT Fence manufacturing, powder coating and operating facility under one roof.**

**St Kevin's GAA Co. Kildare.**

**Pairc Ui Chaoimh Co. Cork perimeter fencing.**

# What We Offer

## Design services

From Design stage we can offer advice and technical guidance with our own in house Computer Aided Design facility to help spec the best design both above and below the ground.

## In house capabilities

At Premier pitches we understand that the ground below is just as important as the surface above. We have our own groundworks & civils team which leads to a consistent level of quality on every build. From civil works, floodlighting and fencing to synthetic surface we have full control over the build by using in-house teams to complete all aspects of the project which ensures projects are delivered within the program and budget with consistency in quality and finish.

## Expertise and resources:

Boasting over 50 staff members across fencing installation and pitch builds, we have the resources to manage several large scale pitch builds at once while keeping in line with strict client programs to deliver your project on budget and within time. Projects Managers and Civils teams with over 30 years of experience in constructing synthetic pitches and associated ground works. Completely self sufficient in terms of plant and machinery.

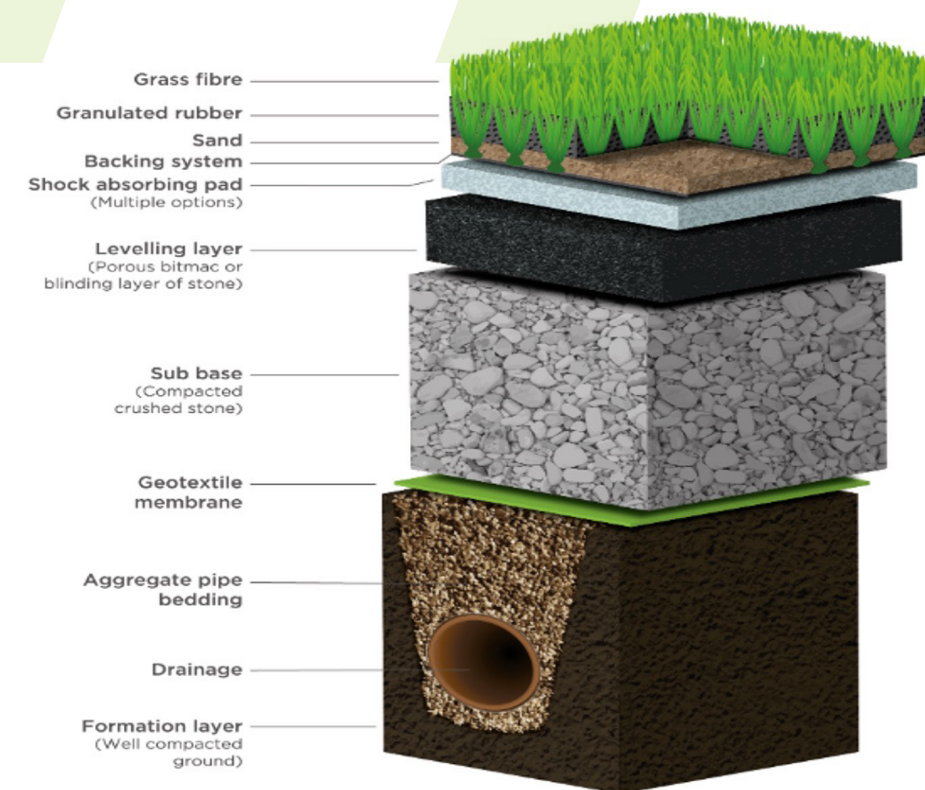

## World class suppliers

Our synthetic carpet is sourced through a long term globally recognised European supplier. Our grass is FIFA, GAA, FIH and World Rugby approved. Our suppliers are FIFA preferred producers of synthetic turf meaning they are continually monitored & audited year round by the sporting body for the highest quality control.

## Warranties and guarantees

We can offer up to 10 year warranty on synthetic grass products, depending on which product is selected and this is accompanied by an 8 year warranty from JNC on the workmanship / installation of the products which extends to sub-base works, fencing netting etc.

## Bishopstown Co. Cork 14,000m<sup>2</sup> GAA Certified 3G Pitch

- Project value- €1m – Scope included, 14,000m<sup>2</sup> state of the art synthetic playing surface along with a new sand based GAA pitch.
- Independently tested & certified to GAA Standard.
- Shockpad system with 60mm monofilament GAA certified grass.
- Almost 1000m of JNC 868 spectator rail in total supplied and installed by JNC Fencing/ Premier Pitches.
- 2.4m & 3m high JNC 868 security fencing installed to secure new facilities.

"This project involved the conversion of our clubs existing training pitch to a GAA certified all weather pitch along with the conversion of another training pitch into a new sand based pitch.

From start to finish Premier Pitches were a pleasure to work with and their workmanship was second to none. Regular progress reporting ensured that we as a club were kept in the loop every step of the way but it really was a case of handing over the site for 12 weeks and Premier Pitches delivering this state of the art facility within programme and on budget, we couldn't be happier with our new facilities which will further propel our club in the right direction."

**Brian Cuthbert- Former Cork Senior Football manager and head of Bishopstown GAA Astro committee**

## Sean Walsh Park/ Tallaght Stadium Dublin – Fifa, World Rugby & GAA certified

- Project value: €1m plus.
- 7,000m<sup>2</sup> state of the art playing surface.
- Independently tested & certified to FIFA, World Rugby & GAA Standards.
- Poured insitu shockpad system with 60mm monofilament synthetic grass.
- 6m high JNC 868 security fencing installed to secure new facilities.

"This job has turned out to be a world class facility. Sean Walsh Park was completely under utilised as a recreational facility and Premier Pitches have completely transformed this wasted ground into a state of the art facility.

Not an easy build by any means as most access was acquired through Tallaght Stadium but from start to finish Premier Pitches worked tirelessly to hit their deadlines with minimal disruption to ongoing activities in the stadium grounds.

They have delivered a top class pitch. The community are delighted with it and we would be happy to work with the contractor again."

**South Dublin County Council**

## **Boyne Rugby Club- certified to World Rugby standards**

- Independently tested to World Rugby Standards.
- 20mm Shockpad system with a 60mm Dual Fibre yarn. Specifically designed for rugby to reduce skin abrasion and a lot more forgiving on players in the tackle.
- LED floodlighting system.

"After a competitive tender process we decided to engage Premier Pitches to construct our synthetic training pitch. Premier Pitches were extremely competitive on price and our players loved their synthetic surface at another neighbouring facility they had completed.

The pitch was finished to an excellent standard and has been a great asset to the club in terms of player development & club competitiveness.

Our Seniors currently train on the facility 3 times a week and it stands up great considering the amount of other teams training on it. The surface is a softer yarn, not too hard on the legs and our lads love it. Premier have done a top class job here and we will be discussing a potential larger build with them in the near future."

**Boyne RFC Co. Louth**

## **St Pauls Primary School Co. Meath**

- 7,000m<sup>2</sup> state of the art playing surface.
- Blue 24mm shortpile synthetic walkway path – 500m.
- Separate Skills wall and synthetic play area.

"With the increase to almost 800 pupils, an entire new school build was required for St Pauls to cater for the increased headcount. We required a specialist contractor for the synthetic pitch build and we are so happy to have partnered with Premier Pitches on this venture.

From the outset, their men worked day and night to hit a deadline for the new school year. Their input into design especially around the synthetic walkway was invaluable and they delivered everything we set out to achieve.

The pitch consists of 7,000m<sup>2</sup> of playing space, a synthetic walkway around the pitch and a skills wall. We now have a facility to accommodate over 700 students each day, rain, hail or snow. Premier Pitches are professional, practical and were very accommodating from day one on site and we will be working with them again in the very near future."

**South Dublin County Council**

## Killeshin FC. Co. Laois FIFA Certified 3G Pitch

- 6000m<sup>2</sup> state of the art playing surface.
- Independently certified to FIFA Standards.
- 500m of JNC 868 spectator rail surround.
- 6 column metal halide floodlight system installed by Premier Pitches.
- Dugouts and goals installed by Premier Pitches.

## St. Raphaela's Secondary School /Genesis Hockey Club Dublin

- Resurface of regulation size hockey pitch to FIH Hockey standards
- Additional project video- Pembroke Wanderers Hockey club- [https://www.youtube.com/watch?v=qY0P99r\\_AR8&t=34s](https://www.youtube.com/watch?v=qY0P99r_AR8&t=34s)

## The Abbey CBS Tipperary Town

- 6000m<sup>2</sup> State of the Art playing surface.
- LED Floodlighting system 350 LUX avg.
- Independently tested & certified to new GAA Standards.

"From start to finish Premier were a pleasure to deal with and manage to complete works on time for our annual summer games days despite leaving cert exams commence toward the end of the build."

**John Kiely - Principal & Limerick Senior Hurling Manager**

## Salesian College Co.Kildare - Fifa Certified

- Certified FIFA approved synthetic pitch.
- 6 column LED Floodlighting system.

"My 4th synthetic pitch project working with Premier Pitches on and the result is the same. Their attention to detail and quality in each build is what sets them apart and just a very easy contractor to communicate and deal with."

**David Behan - Sports Ground Solutions & Project consultant**

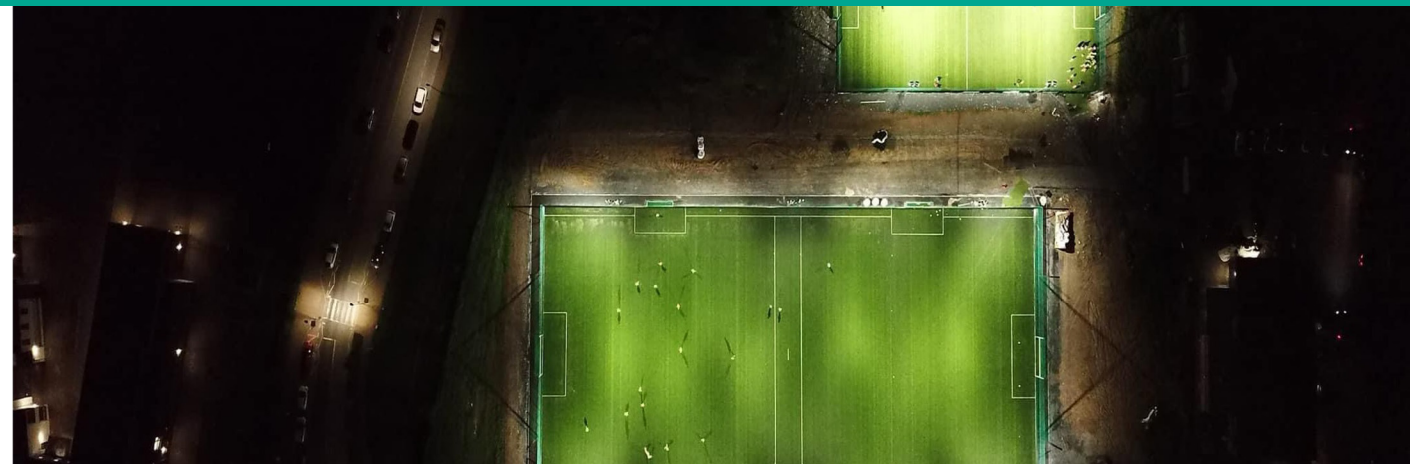

## **St Declans GAA Ardmore Co. Waterford**

- 100m x 45m GAA Training pitch.
- 60mm GAA certified synthetic grass.
- Sports floodlighting system.
- 2.4m high Doublebeam 868 mesh fence with 4.1m ball stop net.
- Pitch dividing net.
- Recessed GAA goals.
- Promotional video: <https://www.youtube.com/watch?v=cHGdUIU5Fz4>

## **Mungret GAA 90x45m Pitch & 60x30m Hurling Wall**

- Pitch A- 100m x 45m GAA Training pitch.
- Pitch B- 60m x 30m- skills wall and synthetic pitch.
- 60mm GAA certified synthetic grass on a 20mm shockpad system.
- LED Sports floodlighting system.
- 2.4m high Doublebeam 868 mesh fence with 4.1m ball stop net.
- 12m high ballstop netting around synthetic pitch.
- Recessed GAA goals.

## **St Patricks Boy AFC Co. Carlow**

- 6,200m<sup>2</sup> FIFA certified synthetic pitch.
- 1.2m high JNC 868 spectator rail surround.
- State of the Art LED floodlighting system.
- JNC designed 10m high ball retention netting.

## **Ballyporeen GAA Co. Tipperary**

- Project 1 - 3, 600m<sup>2</sup> synthetic GAA pitch.
- Project 2 - 5m high precast skills wall and 400m<sup>2</sup> synthetic training area.
- Project 3 - Synthetic goalmouths.
- 2.4m high JNC 868 Doublebeam surround with state of the art LED floodlighting system.

## **Maynooth Town FC Co. Kildare**

- 7,000m<sup>2</sup> FIFA Approved synthetic pitch.
- Independently tested by Sports Labs to FIFA quality standard.
- Sports floodlighting system.
- 2.4m high Doublebeam 868 mesh fence with 4.1m ball stop net.
- Full enclosed tarmac spectator areas on both sides of pitch including dugouts.

## **Sallins GAA Co. Kildare – GAA Certified**

- 4,000m<sup>2</sup> GAA Certified synthetic pitch.
- State of the Art 350 LUX LED floodlighting system.
- 2.4m high fencing with 2.6m netting.
- JNC designed 10m high ball retention netting.
- Fully enclosed spectator area with a synthetic base for heavy wear and tare.

# What Our Clients Say

"We contracted Premier Pitches to design and install a synthetic warm up and technical area in 2019 to combat the side lines being trampled from heavy use. Given the calibre of athletes that use this facility we require the highest standard when it comes to facility upgrades and Premier Pitches delivered a state of the art surface that can stand up to the busy intercounty schedule. This project has saved 1000's on maintenance costs and we have received nothing but positive feedback from the players using it."

**David Morgan- Director of Semple Stadium Co. Tipperary**

"In 2016 Fethard GAA set out ambitious plans to install a new all-weather facility to progress the vision of the club and its members, it wasn't going to be easy as the existing site was tight with tennis courts, handball alleys and changing rooms all contained in the area that was chosen. JNC Premier Pitches won the tender process and from the first minute the project ran like clockwork. Premier Pitches have their own in-house Health and Safety Manager, and this was a huge plus because on a site that needed to be operational for the duration of the build the safety of our players and members was paramount. JNC Premier Pitches completed the full contract which included moving existing ball stops and installing a retaining wall between the new artificial pitch and the existing natural pitch. Everything from the ground works, drainage, fencing, floodlighting, access ramps, as well as the pitch installation was carried out to the highest standard and we are delighted with the quality of playing surface and would highly recommend JNC Premier Pitches to any club."

**John Hurley - Chairman Fethard GAA Club Co. Tipperary**

"Premier Pitches were contracted to construct our new All Weather pitch and hurling wall facility in 2020. They had completed numerous projects with a similar scope to ours and the feedback and workmanship from past clients they had worked with spoke for itself. Their ability to manufacture bespoke posts from their manufacturing facility meant they could offer a cost effective design on the 1.2m high precast panel incorporated as part of our pitch build. We couldn't be happier with what they have delivered and neighbouring clubs are now travelling to use our facility which is starting to generate additional income for the club. From the guys on the ground to the project management team, Premier Pitches were a pleasure to deal with from start to finish."

**Chairman- Burgess GAA Club Co. Tipperary**

"Premier Pitches were employed by our school to complete a relatively small project, a new build of a 28m X 10m play area. From contacting Premier Pitches initially until the day of completion, their professionalism was second to none. Every detail was discussed, planned and agreed upon before the work began. The time line provided was accurate and adhered to precisely.

The work area was safely secured and there was no interference to the school during the completion of the project. All work was carried out to an extremely high standard and the materials used were of equal high quality. Handover of the completed play area was professionally done and the area required to store materials was cleaned perfectly.

I could not recommend Premier Pitches highly enough. If you require a professional service with premier workmanship, well look no further. I would be delighted to provide any further information to anyone one contemplating employing Premier Pitches in the future."

**Derek Middleton- Principal Darley National School Co. Cavan**
